

When it comes to Hedge Fund IT
You need a partner
who understands **your business**

- Alternative Investment Industry Focus
- Combined Client Base AUM \$415BB
- Blue Chip Client List
- Prime Brokerage Relationships
- Investor Community Recognition
- Front, Middle, Back Office Expertise

InfoHedge Hosted Platform™ delivers enterprise grade technology platform over the wire from SAS 70 Type II facilities on a flat fee subscription basis. Embedded Disaster Recovery & Compliance features coupled with our standard Due Diligence Reply document will enable you to put investors at ease as well as serve as a comprehensive tool during a potential regulatory or registration process with SEC, FINRA, SIPC, MSRB, NFA and other agencies. The product is designed to deliver optimal TCO, ease of relocation, highest level of security, and does not require an initial capital investment into server systems. InfoHedge is a Single Custody Provider and does not outsource any of the product features, all systems are owned, designed, and operated by InfoHedge.
