

## **InfoHedge Authorized as Hosting Services Provider for ConvergeEx's Eze OMS**

**NEW YORK, June 23<sup>rd</sup>, 2010** – InfoHedge Technologies, a leading provider of technology products to the alternative investment industry, announced today that InfoHedge has been selected by ConvergeEx Group, a leading technology company, as an authorized hosting provider for the Eze OMS™, ConvergeEx's award winning order management system.

This partnership enables ConvergeEx's client base to have an option of deploying the Eze OMS as a hosted ASP based solution via InfoHedge's managed VMWare virtual server hosting and Citrix infrastructure. Traders now have an ability to have lightning fast access to their trading applications not only from their office PCs but also from any remote computer as well as Apple iPads with the data securely hosted and backed up by the InfoHedge Hosted Platform™. This delivery platform is highly scalable and includes managed Market Data & FIX Connectivity, Redundancy, Guaranteed Uptime, Data Replication, Disaster Recovery, Compliance, RSA SecurID Security, and much more.

"InfoHedge Hosted Platform™ is currently delivering over forty various industry specific front, middle, and back office systems. We are already supporting a large number of hosted Eze OMS installs and this collaborative relationship with ConvergeEx Group enables us to deliver better support and tighter integration for Eze OMS clients worldwide," said Alexander Kouperman, President of InfoHedge Technologies. "Being able to access your desktop environment along with trading systems on an iPad has been a huge hit in our client community. We are excited about quickly becoming the vendor of choice for Remote Application Delivery in the Hedge Fund and Broker Dealer space by allowing our clients to avoid all capital investment associated with trading infrastructure."

### **About InfoHedge**

InfoHedge Technologies ([www.infohedge.net](http://www.infohedge.net)), is a leading provider of IT services and solutions to the alternative investment industry. InfoHedge is focused on delivering InfoHedge Hosted Platform™ as a cost-effective, enterprise grade alternative to traditional IT infrastructure. Our product enables alternative investment firms to access a robust platform with embedded Compliance, Disaster Recovery, Market Data, FIX Connectivity, File Storage, Remote Access, Messaging, Monitoring, and Third Party Applications on subscription basis with 24/7 support. InfoHedge offers systems integration services in the portfolio accounting, reference data, risk management, and trade execution areas. InfoHedge client base consists of hedge funds, fund administrators, broker dealers fund of funds, exchanges, and investment advisors with a combined AUM of over \$275BB.

### **About InfoHedge Hosted Platform™**

InfoHedge Hosted Platform™ delivers enterprise grade technology platform over the wire from SAS 70 Type II facilities on a flat fee subscription basis. Embedded Disaster Recovery & Compliance features coupled with our standard Due Diligence Reply document will enable you to put investors at ease as well as serve as a comprehensive tool during a potential regulatory or registration process with SEC, FINRA, SIPC, MSRB,

NFA and other agencies. The product is designed to deliver optimal TCO, ease of relocation, highest level of security, and does not require an initial capital investment into server systems. InfoHedge is a Single Custody Provider and does not outsource any of the product features, all systems are owned, designed, and operated by InfoHedge.
