

InfoHedge Authorized as Hosting Services Provider for Orchestra Financial Systems.

NEW YORK, SAN FRANCISCO and PARIS, March 15th, 2011 – InfoHedge Technologies, a leading provider of IT services and solutions to the alternative investment industry, and Orchestra Financial Systems, a new provider of Middle Office Operations and Risk Management solutions to alternative investment management firms, announced today that InfoHedge has been selected as an Authorized Hosting Provider for Orchestra Financial Systems.

This partnership enables Orchestra clients to have an option of deploying Orchestra Software as a hosted ASP based solution via InfoHedge's managed server hosting and Citrix infrastructure. Industry professionals now have an ability to access the application not only from their office PCs but also from any remote computer as well as Apple iPads with the data securely hosted, monitored, and backed up by the InfoHedge Hosted Platform™ infrastructure.

“There is a call for action for alternative managers today: the need to strength risk management and operations to meet new demands from investors and regulators. Orchestra's solution for operations and risk offers the simplicity and cost efficiency demanded by our hedge fund customers. With the InfoHedge's Hosting Platform, we offer even greater simplicity and cost effectiveness”, said Richard Ferrari, Head of Orchestra Financial Systems for North America.

“This new strategic partnership with Orchestra enables us to deliver services to Orchestra's clients worldwide as part of the powerful InfoHedge Hosted Platform™,” said Alexander Kouperman, President of InfoHedge Technologies. “Being able to access your application environment and run front and middle office processes as well as risks reports from any location in a high availability environment with embedded Disaster Recovery is a tremendous benefit to our mutual clients. We are excited about becoming the vendor of choice for Remote Application Delivery.”

About InfoHedge

InfoHedge Technologies (www.infohedge.net), is a leading provider of IT services and solutions to the alternative investment industry. InfoHedge is focused on delivering InfoHedge Hosted Platform™ as a cost-effective, enterprise grade alternative to traditional IT infrastructure. Our product enables alternative investment firms to access a robust platform with embedded Compliance, Disaster Recovery, Market Data, FIX Connectivity, File Storage, Remote Access, Messaging, Monitoring, and Third Party Applications on subscription basis with 24/7 support. InfoHedge offers systems integration services in the portfolio accounting, reference data, risk management, and trade execution areas. InfoHedge client base consists of hedge funds, fund

administrators, broker dealers fund of funds, exchanges, and investment advisors with a combined AUM of over \$300BB.

About InfoHedge Hosted Platform™

InfoHedge Hosted Platform™ delivers enterprise grade technology platform over the wire from SAS 70 Type II facilities on a flat fee subscription basis. Embedded Disaster Recovery & Compliance features coupled with our standard Due Diligence Reply document will enable you to put investors at ease as well as serve as a comprehensive tool during a potential regulatory or registration process with SEC, FINRA, SIPC, MSRB, NFA and other agencies. The product is designed to deliver optimal TCO, ease of relocation, highest level of security, and does not require an initial capital investment into server systems. InfoHedge is a Single Custody Provider and does not outsource any of the product features, all systems are owned, designed, and operated by InfoHedge.
